

An Introduction to Social Impact Assessment

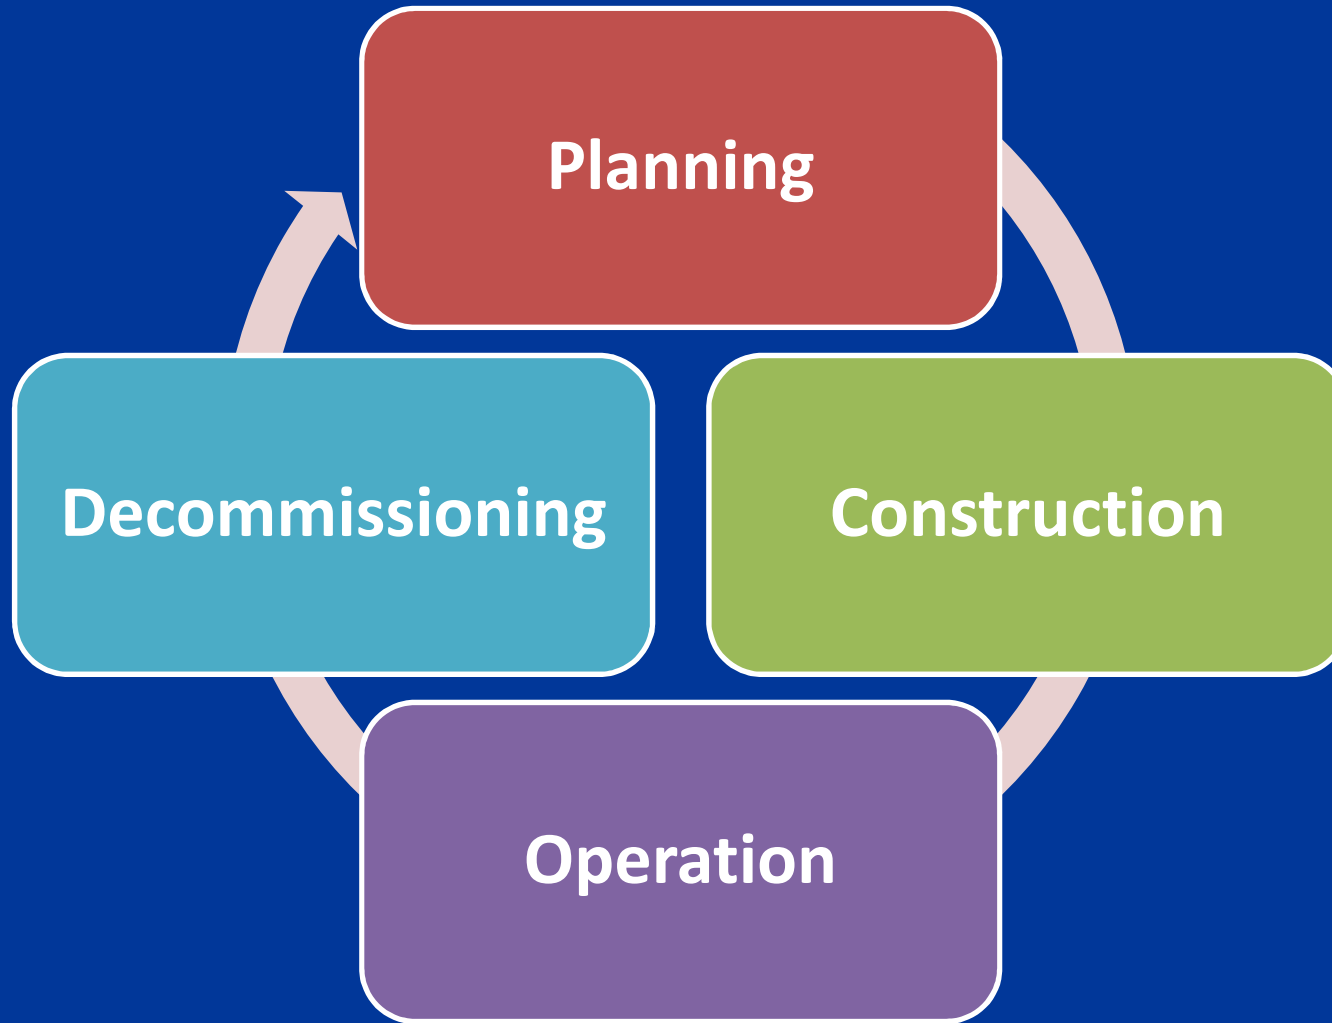

PURPOSE

When and Why?

Phases of Impact

SIA Process

Scoping

'Existing Environment' Description

Identification of Impacts

Assessment of Scale / Significance

Measures to avoid, remedy,
mitigate

Some things to consider

Methods for Assessment

- Review of outcomes of other projects
- Participant Observation
- Inquiry / Interview methods / “Beneficiary Assessment”
- Focus Groups / Workshops (scenario testing)
- Movement mapping and resource use
- Trend extrapolation (e.g. population)

Managing Effects
